

MENACAB 2018 Marrakech, Morocco Application process

Information on the APPLICATION PROCESS for the Middle East and North Africa Community Advisory Board (MENACAB) Meeting -- A MENA countries HIV, HBV, HCV, TB Treatment Access Advocacy Training Workshop and Industry Meeting

KEY DATES:

Application submission opening: September 12th, 2018

Application submission deadline: September 26st, 2018

Notifications of successful applications: October 1st, 2018

MENACAB meeting dates: 24- 27 October 2018, Marrakech, Morocco

What is the MENACAB?

The MENACAB is a treatment advocate network which main aim is to improve access to strategic information for people living with HIV, Hepatitis B, hepatitis C and tuberculosis to equip them for effective advocacy for Universal Access at country and the regional level. In addition, one of the goals of the MENACAB is to develop and strengthen the network of treatment advocates and to provide expert training on current treatment issues and opportunities to meet with pharmaceutical companies and public health institutions, and any relevant body dealing with access issues.

What is the MENACAB 2018's Marrakech meeting?

A forum to provide peer-driven HIV and auto tests advocacy treatments strategy capacity building for 20 leading advocates from Middle East and North Africa. Through training and direct meetings with originator pharmaceutical companies, generic producers, advocates will have the opportunity to effectively engage with companies on HIV, auto tests diagnostics and treatment pricing, patents, and registration issues.

Criteria to select the applicants to the MENACAB amongst the received applications:

- Person living and working in a country of the Middle East and North Africa region
- Person living with HIV and key population
- Skills on intellectual property
- Skills on drug pipeline for HIV
- Topics of the CAB in direct link to national strategies
- Previous participation to a CAB

- Cover letter and recommendation
- No conflict of interest with the pharmaceutical industry
